Canada, V0R 1X0
(250) 247-9737

Greening School Grounds: Creating Habitats for Learning. 2001. US \$16.95, 144 pgs.

Eds. Tim Grant and Gail Littlejohn

This book is a compendium of articles from *Green Teacher* magazine. It includes strategies for transforming barren expanses of school grounds into natural spaces for learning and playing. Articles range from an overview of the school grounds greening movement to project plans, curriculum tie-ins, activities, and plans for educators, parents, and students. Includes extensive resources.
